Saab 9-5 Stainless steel dual sports exhaust system

The new Hirsch Performance dual exhaust system made of stainless steel gives the Saab 9-5 a sporty appearance. Carefully tuned mufflers and resonators provide a powerful deep sound without being too loud, and the flow-optimized tubing reduces back pressure. With the large dual tailpipes and the corresponding rear skirt, the Saab 9-5 looks just as sporty as it is.

Rear with rear Spoiler Lip

End silencer and Y pipe

Parts included in the shipment

Customer benefits:

- sporty, powerful sound, without being too loud
- attractive Hirsch Performance design
- reduced back pressure improves throttle response
- longevity and easy maintenance thanks to the stainless steel design

Dealer benefits:

- alternative offer to the standard exhaust system
- possibility for an attractive styling of exhibition vehicles
- meets customer demand for dual exhaust
- Complete package (fitting, styling)
